◆ How to display the Control Panel:

- Windows7 :Click the [Start] menu and click [Control Panel].
- Windows8/8.1 :Click [Settings] from Charm (Windows key + C), and click [Control Panel].
- Windows10 :Type [control] in the search box on the taskbar, and then click [Control Panel] from the search results.

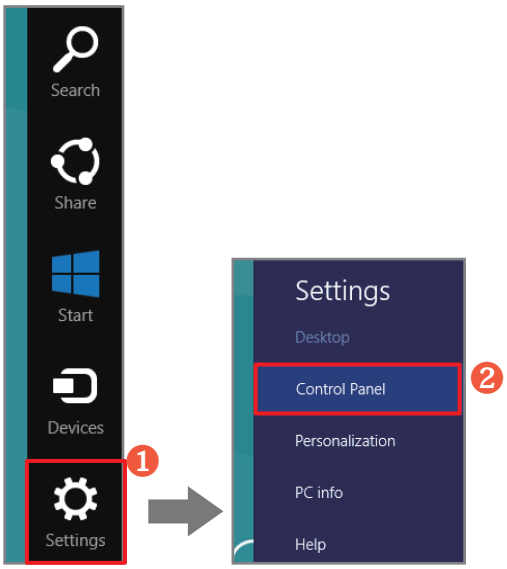

Windows7

Windows10

Windows8/8.1

2. How to Backup

You can perform backup in the following two ways.

(a) Perform backup when changing printer driver settings
(b) Back up from Backup Utility

* Since the initial value is set immediately after adding the printer, backup can not be performed.

The backup file is saved in the following location for each software.

C:\Star\Backup\futurePRNT\Printer queue name\

C:\Star\Backup\StarPRNT\Printer queue name\

C:\Star\Backup\mPOP\Printer queue name\

C:\Star\Backup\Portable\Printer queue name\

C:\Star\Backup\BSC10\Printer queue name\

C:\Star\Backup\BSC10BR\Printer queue name\

C:\Star\Backup\TSP043\Printer queue name\

* "C" is the drive letter of the system drive.

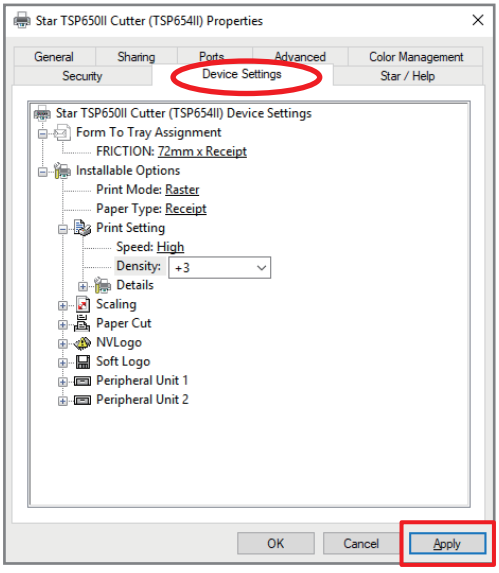

(a) Perform backup when changing printer driver settings

1. From [Control Panel] - [Devices and Printers]
   Right-click the printer icon and click [Printer Properties].

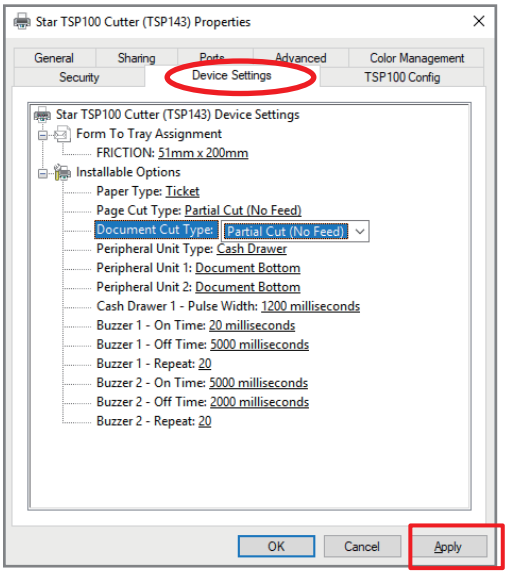

2. Click the [Device Settings] tab and change the printer driver settings.

3. After changing the setting, please click "Apply" button.

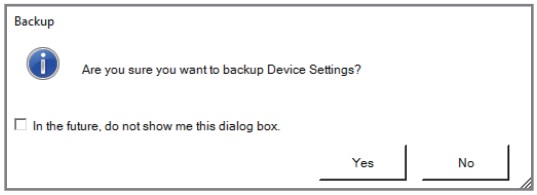

- StarPRNT Intelligence
- StarPRNT Intelligence for mPOP
- StarPRNT Intelligence for Portable

- Star TSP100 futurePRNT

4. The following message dialog will be displayed.
   Click "Yes" when backing up.
   If you do not back up please click "No".

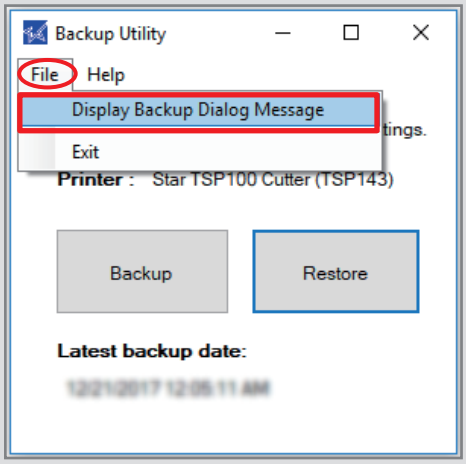

If you enable the check, a confirmation message will not be displayed.

If you enable the check and click "No", backup will not be performed even if you change the setting later.

To display the confirmation message again, please execute the Backup Utility.

Then, click "Display Backup Dialog Message" in the file menu.

(b) Back up from Backup Utility

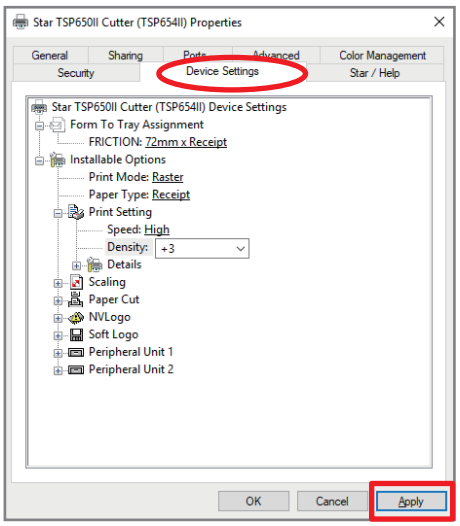

1. From [Control Panel] - [Devices and Printers]

   Right-click the printer icon and click [Printer Properties].

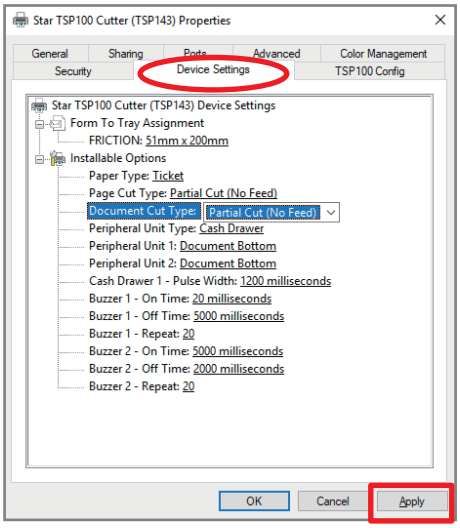

2. Click the [Device Settings] tab and change the printer driver settings.

3. After changing the setting, please click "Apply" button.

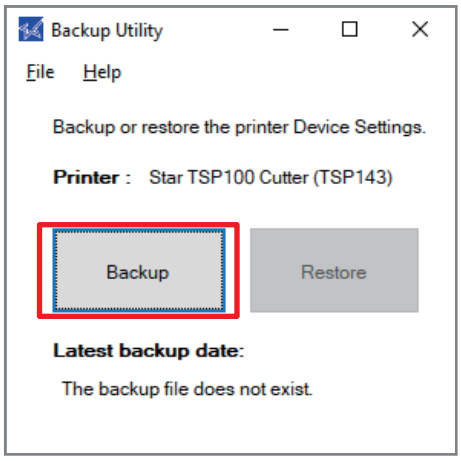

- StarPRNT Intelligence
- StarPRNT Intelligence for mPOP
